What's a Senior Seminar?

- A capstone project that all graduating CSci seniors must complete
- It involves doing research, writing a paper, and presenting on their selected topic
- All papers must be reviewed by a CSci alum

- There are specific products that are designed specifically for companies that practice DevOps

@emmahsax

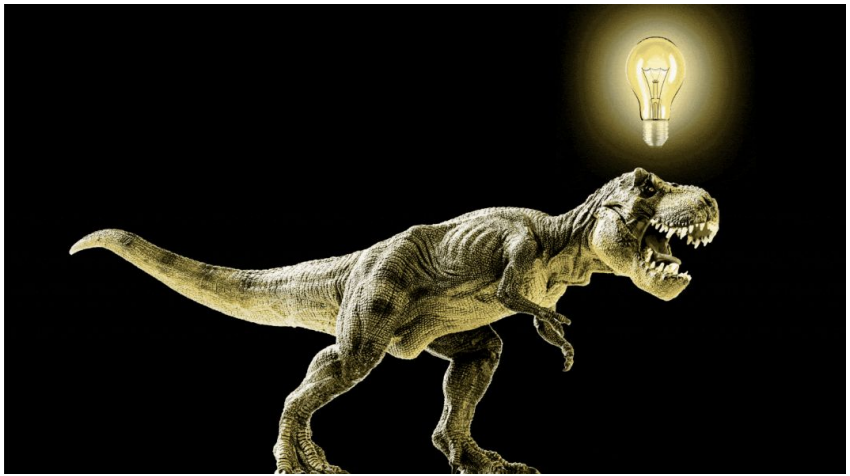
Other Things I Learned...

- I know some words and phrases the DevOps community uses
- I am able to describe the benefits of DevOps
- I have my own experience of using DevOps that is completely unique
- I knew more about DevOps than I thought I did



@emmahsax

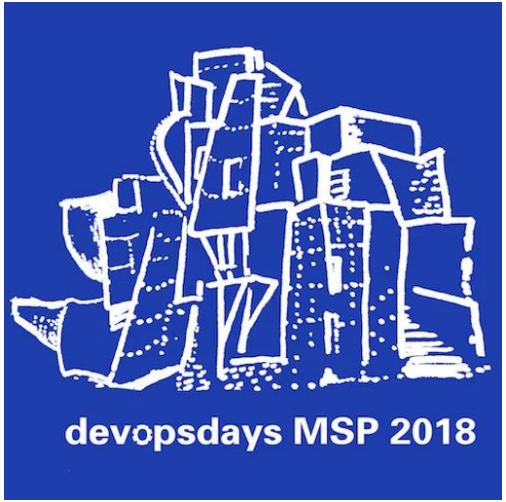
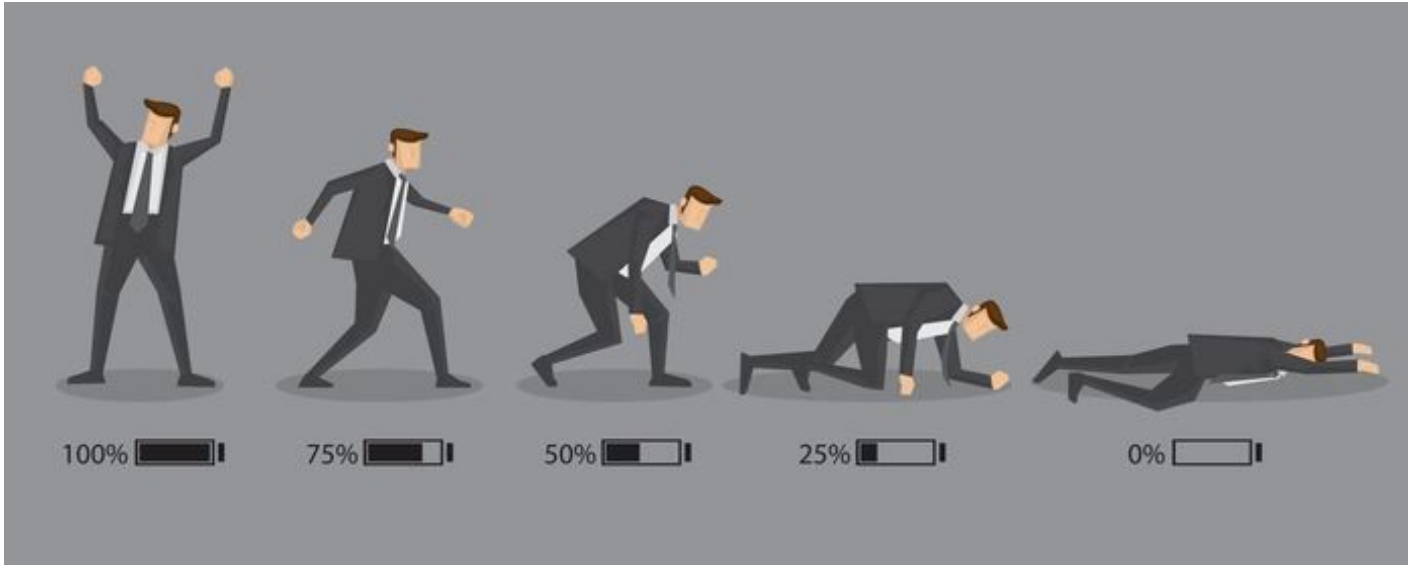
It's My 5th Year at DevOpsDays MSP!



@emmahsax

Conferences can be Exhausting



@emmahsax

We're Always Learning, Even if it Doesn't Feel Like It

@emmahsax

Confidence is Key

@emmahsax

When you talk to other people, you get the chance to understand how much you already knew.

When you talk to other people, you get the chance to understand how much you already knew.

Thank You!
